NOTES

This facility is an existing *40 acre Class II-2 sanitary landfill; site life is expected to be 16.5 years. The area method of operation is utilized. The facility is located in Section 32, T. 41 N., R. 4 W. M.D.M. in Siskiyou County. The disposal site receives 26.5 tons per day. The site is operated from Noon-to-7 p.m. Monday thru Friday and 9:00 a.m. to 7:00 p.m. Saturday and Sunday. Salvage operations are conducted by the site operator only. Types of wastes received at the site include:

- Residential and Commercial Wastes
- Tires
- Construction and Demolition Wastes
- Septage wastes

Design and operation of this facility are as specified by the Report of Disposal Site Information dated June 1978; that which pertains to the period immediately prior to August 15, 1977 is hereby made a part of this finding. There are no proposed significant changes in design or operation.

Land within 1,000 feet of the site is not zoned.

This facility's design and operation are currently in substantial compliance with State Minimum Standards as determined by physical inspection made on September 29, 1977, except that they violate Section 17711. The conditions of this permit establish an appropriate schedule for compliance with this section.

This permit is consistent with the Siskiyou County Solid Waste Management Plan and with the State Minimum Standards for Solid Waste Handling and Disposal.

The following documents condition operation of this facility:

- California Regional Water Quality Control Board, Central Valley Region: Waste Discharge Requirements No. 74-311.

*(Since 1969)

This permit is granted solely to the operator named above, and is not transferable. Upon a change of operator, this permit is subject to revocation. Upon a significant change in design or operation from that described in this permit or in attachments thereto for the existing design and operation of a facility operating immediately prior to August 15, 1977, or from the approved intended design and operation of a facility which was not operating prior to August 15, 1977, or which herein is granted a permit modification, this permit is subject to revocation, suspension, modification or other appropriate action.

This permit does not authorize the operation of any facility contrary to the State Minimum Standards for Solid Waste Handling and Disposal. This permit cannot be considered as permission to violate existing laws, ordinances, regulations, or statutes of other government agencies.

- b. U.S.F.S Special Use Permit, dated 12/12/68
- c. Fire Plan (Revised 1978)

CONDITIONS:

Requirements:

1. This facility must comply with the State Minimum Standards for Solid Waste Handling and Disposal.
2. This facility must comply with all federal, state, and local requirements and enactments.
3. Additional information concerning the design and operation of this facility must be furnished upon request of the enforcement agency.

Prohibitions:

The following actions are prohibited at the facility:

1. Disposal of hazardous wastes
2. Disposal of large dead animals
3. Scavenging
4. Shooting of any firearm

Specifications:

1. A daily cover of a minimum of six (6) inches compacted material shall be applied to all exposed wastes.
2. All litter and loose material shall be routinely collected and disposed of properly.
3. Liquid wastes and sludges may be accepted at this site only as approved by the Regional Water Quality Control Board, the local health entity, and the enforcement agency.
4. No significant change in design or operation from that described in Items No. 1 and No. 2 of the Findings Section is allowed, except for those changes which are required under the "CONDITIONS" portion of this permit.

Provisions:

1. By December 31, 1979, the operator shall supply those items required by California Administrative Code sections 17616(e) (f) (g) (h) (i) and (j), (Report of Disposal Site Information).
2. By July 1, 1979, the operator shall supply a plan for the effective collection and disposal of all litter and loose material.
3. This permit is subject to review by the enforcement agency, and may be suspended, revoked, or modified at any time for sufficient cause.

Self-Monitoring Program:

Monitoring for leachate generation will be done in accordance with the Water Quality Control Board's requirements, Central Valley Region.
